

On-line Table: Patient demographic and clinical characteristics

Patient	Age/Sex	Etiology of CSVT	Site of Thrombosis, Anatomy of Sinuses	Ratio of Nonthrombosed VDS to Thrombosed VDS		Symptoms and Signs of Elevated ICP	Treatment/Duration/Complications/Outcome
				Thrombosed VDS	Nonthrombosed VDS to Thrombosed VDS		
1	20 mo/male	Otogenic	Thrombosis of the right TS, SS, and IJV; hypoplastic left-sided VDS	0.26		Encephalopathy, vomiting, no papilledema	Anticoagulation/6 mo/pain around injection site and minor bruising/full recovery
2	5 yr/male	Otogenic	Thrombosis of the left SS; hypoplastic right-sided VDS	0.1		Diplopia, blurry vision, papilledema	Anticoagulation/3 mo/none/full recovery
3	10 yr/female	Hypercoagulability, dehydration	Thrombosis of the right TS, SS, and IJV; hypoplastic left-sided VDS	0.45		Headache, vomiting, papilledema	Anticoagulation/6 mo/none/persistent headaches
4	7 yr/female	Otogenic	Thrombosis of the right TS, SS, and IJV; hypoplastic left-sided VDS	0.12		6th CN palsy, blurry vision, vomiting, papilledema	Anticoagulation/6 mo/minor bruising/decreased VA and VF impairment treated with optic nerve fenestration
5	21 mo/male	Otogenic	Thrombosis of the right TS and SS; hypoplastic left-sided VDS	0.47		Emesis, lethargy, papilledema	Anticoagulation/6 mo/none/full recovery
6	4 yr/male	Otogenic	Thrombosis of the right TS and SS; hypoplastic left-sided VDS	0.29		Blurry vision, diplopia, vomiting, papilledema	Anticoagulation/unknown/unknown/unknown ^a
7	2 mo/female	Traumatic, sepsis	Thrombosis of the right TS and SS	1.22		None	Anticoagulation/3 mo/none/full recovery
8	10 yr/female	Traumatic	Thrombosis of the left SS	0.60		Headache	None/NA/NA/headaches for 2 mo
9	16 yr/male	Traumatic	Thrombosis of right SS	0.94		Headache	None/NA/NA/unknown ^b
10	4 yr/female	Traumatic	Thrombosis of left TS	1.18		None	None/NA/NA/full recovery
11	6 yr/female	Otogenic	Thrombosis of right SS	0.51		Headache, no papilledema	Anticoagulation/1 week (d/c for initiation of chemotherapy and radiation)/none/full recovery
12	5 yr/male	Traumatic	Thrombosis of right SS	0.86		None	Anticoagulation/2 mo/none/unknown ^b

Note:—TS indicates transverse sinus; SS, sigmoid sinus; IJV, internal jugular vein; VDS, venous draining sinus; VA, visual acuity; VF, visual fields; CN, cranial nerve; NA, not applicable; d/c, discontinued.

^a Subsequent care not received at our institution.

^b Patient lost to follow-up.
